### ***Coveo***

Coveo

?

<http://www.coveo.com/en/default.aspx>

"Coveo's award-winning search applications – Enterprise Search and Enterprise Search for SharePoint – help organizations find, understand, and act faster on all information across the enterprise. Our applications deliver unparalleled accuracy, speed, and scalability, resulting in clear efficiencies and value to both small-medium enterprises (SMEs) and Fortune 1000 organizations alike."

### ***Extending desktop search; X1 adds connectors***

1p. KMWorld

06/22/2006

<http://www.kmworld.com/Articles/ReadArticle.aspx?ArticleID=16295>

"X1 Technologies has announced expanded platform support for Microsoft Exchange and SharePoint through new content connectors, which allow companies to leverage their Microsoft systems through secure, unified search. With the X1 Enterprise Platform, users can search, preview and take action on critical Exchange, SharePoint and Office documents, through a single, secure enterprise desktop search interface. Users do not need to know where the data is stored in order to preview, print or take other action on the search results."

### ***Marc Anderson's Blog; A Knowledge Management Zealot Speaks Out***

?

<http://mdablog.spaces.live.com/>

Marc is a principal with Jornata, a SharePoint solution firm. His blog is filled with tips and hints on SharePoint. He also gave the Boston KM Forum meeting by Marc Solomon a nice mention:
